APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit to change the point of diversion, place of use, and manner of use of a portion of the waters of Lake Tahoe heretofore granted under Permit 61784 is issued subject to the terms and conditions imposed in said Permit 61784 and with the understanding that no other rights at the source shall be affected by the change proposed herein. A totalizing meter must be installed in the discharge pipeline near the point of diversion and accurate measurements must be kept of water placed to a beneficial use. This permit is subject to the final allocation of the State of Nevada under the California-Nevada-Interstate Compact Commission or any subsequent allocation approved by both states. The State retains the right to regulate the use of the water herein granted at any and all times.

This permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

The total combined duty of water under Permit 25923, Certificate 9547 and Permit 66137 shall not exceed 2.068 acre-feet annually.

(CONTINUED ON PAGE 3)

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.0028 cubic feet per second, **but not to exceed 2.0 acre-feet annually.**

Work must be prosecuted with reasonable diligence and be completed on or before:

August 24, 2002

Proof of completion of work shall be filed before:

September 24, 2002

Water must be placed to beneficial use on or before:

August 24, 2005

Proof of the application of water to beneficial use shall be filed on or before:

September 24, 2005

Map in support of proof of beneficial use shall be filed on or before:

**Item No. 12 – Remarks:**

**Estimated Consumptive Use:** The commercial and domestic water requested under this application will satisfy the needs of an engineering consulting business located within an existing home. The interior of this existing 2370 square foot home will be remodeled. The interior rooms will be converted into offices and a conference room. The existing kitchen and bathroom facilities will remain to serve the employees and clients.

The existing well noted as the point of diversion provides domestic water for the home that has existed since 1939.

The following existing improvements consume water within the place of use:

- ❖ The existing place of use contains 0.45 acres as specified by the Washoe County Assessors' Office under APN 160-060-20. The existing home that will be remodeled into an office, the existing garage, the existing shed, the existing driveway and sidewalks cover 0.11 acres. The remaining 0.34 acres is mature landscaping consisting of trees, shrubs and lawn. Based on 4.0 acre feet per acre, the landscaping has consumed 1.36 acre feet annually.
- ❖ The interior of the existing home will be remodeled into offices and a conference room. The existing 2.5 bathrooms and kitchen will remain and serve employees and clients. Interior water consumption is expected to be approximately 0.35 acre feet annually. Little change in consumption is expected from domestic interior usage compared to commercial interior usage. Previous domestic interior uses included taking showers, cooking meals, washing dishes and washing clothes on a daily basis. Even though there will be more people, the commercial and client interior usage will include bathrooms, an occasional shower, limited cooking and limited dishwashing.
- ❖ The garage will provide for a geotechnical materials testing laboratory. This lab will have a utility sink for washing lab equipment and water for curing concrete cylinders. The lab water consumption is expected to be approximately 0.20 acre feet annually.

The total volume of water estimated to be consumed is 1.91 acre feet annually.
